#### SECTION 4: FIRST AID MEASURES

#### 4.1 Description of first aid measures

General advice	Immediately remove contaminated clothing, take care not to contaminate unaffected areas.
Inhalation	No emergency care anticipated, other than removal from exposure.
Eyes	Rinse immediately with running water for at least 15 minutes holding the eyelid open; consult an eye specialist.
Skin	Wash thoroughly with water and soap If skin irritation or rash occurs get medical attention (P333+P313)
Ingestion	Immediately rinse the mouth with water and drink plenty of water. Obtain medical attention immediately, show this safety data sheet.

# **4.2 Most important symptoms and effects, both acute and delayed**

SymptomsEye contact- May cause temporary eye irritation.RisksNo information available

**4.3 Indication of any immediate medical attention and special treatment needed** Treatment Treat according to symptoms (decontamination, vital functions), no known specific antidote.

#### SECTION 5: FIRE FIGHTING MEASURES

# 5.1 Extinguishing media:

Suitable: CO2 or dry chemical spray, water spray may help to reduce the temperature and extinguish flames for surrounding materials. Unsuitable: High pressure water jet.

# 5.2 Special hazards arising from the mixture

The powder will not burn but the packaging is combustible.

# 5.3 Advice for fire fighters

Use full protective clothing and self-contained breathing apparatus.

**Further information**: The degree of risk is governed by the burning substance and the fire conditions. Contaminated extinguishing media must be disposed of in accordance with official regulation.

# SECTION 6: ACCIDENTAL RELEASE MEASURES

**6.1 Personal Precautions, protective equipment and emergency procedures** Use personal protective clothing.

# 6.2 **Environmental Precautions**

Prevent contamination of soil, drains and surface waters. Do not discharge contaminated water/ fire-fighting water into drains/ surface water/ groundwater.

#### 6.3 Methods and material for containment and cleaning up

Collect spillage by sweeping or industrial vacuum cleaner. keep in suitable closed container for disposal

# 6.4 Reference to other sections

For personal protection see section 8 and disposal section 13

# SECTION 7: HANDLING AND STORAGE

7.1	Precautions for safe handlingAdvice on safe handlingAvoid the formation and deposition of dust. Ensure thorough ventilation of stores and work areas. For PPE see section 8 Contaminated clothing should not be allowed out of the workplace (P272). Wash contaminated clothing before reuse (P363)
	Advice on protection Normal measures for preventive fire protection against fire and explosion Take precautionary measures against static discharge if using plastic packaging.
7.2	<b>Conditions for safe storage, including any incompatibilities</b> Keep containers tightly closed. The powder should be stored under cover, in a well ventilated, cool, dry place and away from direct sunlight or heat. Protect from temperatures below: Not applicable Protect from temperatures above: 40 °C Suitable storage materials: Original containers. Higher temperatures and humidity will reduce the shelf life of the product and may cause the powder to form lumps. The powder will also be difficult to mix into a paste. Under normal conditions (21°C) a shelf life of 12 months or more is possible.
7.3	Specific end use(s) As per section 1.2

#### SECTION 13: DISPOSAL CONSIDERATION

#### **13.1** Waste treatment methods

The preparation must be disposed of by special means. Dispose by landfill via a licensed waste disposal contractor in accordance with local and national regulations.

Contaminated packaging should be emptied as far as possible, they can then be recycled after being thoroughly cleaned by a licensed contractor. Labels must not be removed from containers until they have been cleaned. Packaging materials that are not contaminated should be treated as household waste or as recycling material.

#### **13.2** Additional information

The UK Environmental Protection (Duty of Care) regulations (EP) and amendments should be noted (United Kingdom) Dispose of contents/ container according to the end user disposal procedure (P501)
